EDUCATIONS

Maharaja Institute of Technology, Mysore Sep 2023 - Aug 2027
Bachelor of Engineering in Information Science & Engineering *CGPA : 8.85 / 10*

- **CGPA: 8.97 / 10**

WORK EXPERIENCES

App Development Intern | Internship Jul 2025 - Aug 2025
Runshaw Technology Pvlt. *Bengaluru*

- **Engineered responsive, production-ready mobile interfaces** using **Flutter**, **reducing development time by 30%**.
- **Utilized Android Studio** for end-to-end Android app development including debugging, emulator testing, and integration of platform-specific features.
- **Applied advanced Dart concepts** to build modular app architecture, reusable components, and clean code.
- **Delivered 2 fully functional mobile applications** within an 8-week internship cycle, meeting all project milestones on schedule.

Technologies / Skills Used : *Flutter, Dart, Android Studio*

PROJECTS

Automation For Criteria 4

- The Project **automation for criteria 4** is a web-based system that automates calculation, presentation, and export of academic success-rate metrics for undergraduate cohorts.
- It integrates student-level records (semester results, backlog cleared flags, admission details) with authoritative summary documents to compute institutional key performance indicators.
- Deployed a live web application enabling real-time inference.

Technologies / Tools Used : *React, Node.js, MongoDB, supabase*

Titanic Survival Prediction Web App

- Developed a machine learning web application that predicts whether a passenger would survive the Titanic disaster based on input features.
- The application is deployed using **Streamlit** for interactive user input and real-time prediction.

Technologies / Tools Used : *Python, pandas, NumPy, Scikit-learn, Matplotlib, Seaborn*

AI Vision Pro

- **AI Vision Pro** is an AI-powered image analysis web application built using **Python** and **Streamlit**.
- Allows users to upload images and perform object detection, text extraction, and image enhancement.

Technologies / Tools Used : *Python, Streamlit, OpenCV, YOLOv8, Tesseract OCR, NumPy, gTTS, Pillow*

SKILLS

Databases :	MySQL, MongoDB, PostgreSQL, Firebase Firestore
Frameworks & Libraries :	React.js, Node.js, Flutter, Flask, FastAPI, Next.js, Tailwind CSS, Bootstrap
Programming Languages :	Python, C, Dart, JavaScript, SQL, HTML/CSS, Kotlin, TypeScript
Tools & Platforms :	Git, Android Studio, VS Code, Docker, Firebase, Google Cloud Platform, Anaconda

CERTIFICATIONS

EXTRA CURRICULAR

- Served as Campus Ambassador at GSSOC **’25**.
- Held the position of **Technical Co-ordinator** in Infosphere Club.
- Participated in **Hack Infinity Hackathon** 2025.
- Active member of **GDG**.
- Contributed to **Open Source Connect India (OSCI) ’25**.
